Summary

Motivated software engineer with a strong background in developing innovative solutions. Experienced in blockchain technology and system management. Proven ability to deliver projects on time and improve system efficiencies.

Work Experience

- Developed and implemented a blockchain-based fundraising platform, increasing transparency and trust.
- Designed and deployed an attendance management system, reducing manual errors by 95%.
- Collaborated with teams to ensure seamless feature integration.
- Optimized backend performance, leading to a 20% efficiency increase.

Projects

Blockchain-based Fundraising Campaign

Technologies Used: Solidity, Ethereum, Web3.js, React

- Implemented smart contracts for fund automation.
- Designed a user-friendly interface for real-time fund tracking.
- Selected for Project Exhibition, currently in the final round.

Attendance Management System

Technologies Used: Java, MySQL, RFID

- Developed backend services for real-time data.
- Created reports and analytics for attendance insights.

Shutr - Social Media Application

Technologies Used: MongoDB, Express.js, React, Node.js (MERN stack)

- Developed a full-stack social media application allowing users to share photos and updates.
- Implemented user authentication and real-time notifications.
- Optimized the application for performance and scalability.

Education

Bachelor of Engineering in Computer Science	Percentage: 72%
Chandigarh University, Mohali	Passing Year: 2020
Expected Graduation: June 2026	**Matriculation**
Current CGPA: 7.5	Kishan HS School, Nalanda
Intermediate Education	Percentage: 66%
KST College, Nalanda	Passing Year: 2018

Skills

- Blockchain (Solidity, Ethereum, Web3.js)
- Programming Languages (Java, JavaScript)
- Web Development (React, HTML, CSS)
- Database Management (MySQL, MongoDB)
- System Integration

Extracurricular Activities

- Class Representative (CR) during fourth semester.
- Volunteered in CU Fest.
